

Application Guidelines for the 2026 Eliminating Disparities in Childhood Cancers Award

Please note that Children's Cancer Research Fund permits investigators to submit only one Letter of Intent as Principal Investigator per calendar year. Applicants are encouraged to review all available grant mechanisms before applying.

Further details on our Research Grant Policies can be found below. We encourage applicants to contact CCRF staff with questions regarding eligibility requirements. Questions should be directed to grants@childrencancer.org.

Letter of Intent Due: April 24, 2026 (by 8:00 p.m. Eastern)
Full Application Due: August 10, 2026 (by 8:00 p.m. Eastern)

About Children's Cancer Research Fund

In 1979, 13-year-old Katie Hageboeck was nearing the end of her 16-month battle with leukemia. Before she died, Katie asked that her savings for a new 10-speed bike be given to Children's Cancer Research Fund, a little-known fund at the University of Minnesota. Since 1981, Katie's parents, Diana and Norm, have made it their mission to support groundbreaking research.

Today, Children's Cancer Research Fund (CCRF) is a national nonprofit focused on funding transformational research to bring better treatments and cures to children with cancer. Thanks to donors and partners around the country, we have contributed more than \$235 million to research, education and awareness, and quality-of-life programs for childhood cancer families. We believe children deserve safer, less toxic treatments, and we're committed to funding groundbreaking research and services that enhance healing and care.

Eliminating Disparities Award Description

With this award, CCRF wishes to support research that reduces health disparities or inequities in childhood cancer incidence, presentation, access to care, outcome of therapy including adverse event rates, or survivorship.

Health disparities are defined here as “systemic, plausibly avoidable health differences adversely affecting socially disadvantaged groups.” (Braveman et al. 2011). CCRF will consider disparities based on race/ethnicity, sex or gender, socioeconomic status, language, geography, or other social determinants of health, so long as their evaluation is supported by the literature. Proposals that identify modifiable risk factors, elaborate mechanisms of disparities or inequities, or which plausibly propose to reduce them, will have greater priority for funding than proposals that simply describe them.

Letter of Intent & Application Timeline

LETTER OF INTENT DUE	APRIL 24, 2026, BY 8:00 P.M. ET
INVITATION TO SUBMIT FULL PROPOSAL	JULY 1, 2026
FULL PROPOSAL DUE	AUGUST 10, 2026, BY 8:00 P.M. ET
NOTIFICATION	JANUARY 2027
AWARD STARTS	NO LATER THAN JUNE 30, 2027

Award Information

Application Types

We will accept applications that are new or from a previous pilot study. We will also accept applications (R03, R21) that have been reviewed but not funded by the National Institutes of Health (NIH). We will also consider proposals that were awarded, but later cancelled, by the NIH as long as they correspond to the requirements of this funding mechanism. (See Resubmission of NIH Funded Applications below for additional information).

Number of Awards

Funding of awards will be dependent on the availability of funds.

Award Period

Maximum project period is 24 months.

Award Budget

A budget for total costs up to \$125,000 per year may be requested. This includes indirect costs of up to 10% of direct costs.

Clarifications:

- Allowable direct costs include salaries, fringe benefits, supplies, sub-contracts, publication costs, equipment & travel expenses.
- CCRF adheres to the NIH salary cap for Principal Investigators.
- Project-related travel is allowed as needed and must be fully justified. Up to \$2,000 per year for conference travel.
- All sub-contracts and collaborations must be described and well-justified.
- If utilizing a subcontract, the PI's institution is responsible for disbursing subcontract funds.
- Any equipment to be purchased with grant funds must be well-justified.
- Indirect costs of 10% of direct costs are allowed.

Applicant Eligibility & Requirements

- Applicants must be eligible to serve as a Principal Investigator at their sponsoring institution.
- Applicant institutions must be based in the United States.
- Applicants are not required to be United States citizens.
- Awarded PIs are required to commit at least 10 percent of their research efforts each year to activities supported by this award.
- Submission of a Letter of Intent (LOI) is required.
- Co-Investigators and/or collaborators are permitted, but the award must be made to a single institution which will act as the grant administrator.
- Applicants' organizations may submit more than one application, provided each application is scientifically distinct. However, CCRF will only accept one LOI from a PI each calendar year.
- Applicants should review all necessary materials and use the appropriate templates and forms. Failure to comply with the instructions provided may result in programmatic or administrative rejection of your Letter of Intent (LOI) or full application.
