

## Application Guidelines for the 2026 Healthy After Cancer: Childhood Cancer Survivorship Research Award

Please note that Children's Cancer Research Fund permits investigators to submit only one Letter of Intent as Principal Investigator per calendar year. Applicants are encouraged to review all available grant mechanisms before applying.

Further details on our Research Grant Policies can be found below. We encourage applicants to contact CCRF staff with questions regarding eligibility requirements. Questions should be directed to [grants@childrenscancer.org](mailto:grants@childrenscancer.org).

Letter of Intent Due: April 24, 2026 (by 8:00 p.m. Eastern)  
Full Application Due: August 10, 2026 (by 8:00 p.m. Eastern)

## About Children's Cancer Research Fund

In 1979, 13-year-old Katie Hageboeck was nearing the end of her 16-month battle with leukemia. Before she died, Katie asked that her savings for a new 10-speed bike be given to Children's Cancer Research Fund, a little-known fund at the University of Minnesota. Since 1981, Katie's parents, Diana and Norm, have made it their mission to support groundbreaking research.

Today, Children's Cancer Research Fund (CCRF) is a national nonprofit focused on funding transformational research to bring better treatments and cures to children with cancer. Thanks to donors and partners around the country, we have contributed more than \$235 million to research, education and awareness, and quality-of-life programs for childhood cancer families. We believe children deserve safer, less toxic treatments, and we're committed to funding groundbreaking research and services that enhance healing and care.

## Childhood Cancer Survivorship Award Description

This award is intended to shape the future of cancer survivorship treatment and care. We invite applications that focus on improving the quality and quantity of life for childhood, adolescent, and young adult cancer survivors. Our goal is to support development of interventions that prevent, minimize, and address the late effects of cancer therapies.

Proposals to develop drugs or modalities meant to mitigate late effects, as the sole or primary focus, are eligible. Proposals to develop therapeutic approaches (new drugs, modalities, or regimens for treating cancer) are not eligible to apply. In addition, projects that propose to translate basic research into interventions, regardless of whether these take place during active therapy or later, are encouraged. Observational studies are welcome but are a lower priority, except those describing late effects (or early signs of late effects) among children receiving novel agents or therapies.

## Letter of Intent & Application Timeline

<b>LETTER OF INTENT DUE</b>	<b>APRIL 24, 2026, BY 8:00 P.M. ET</b>
<b>INVITATION TO SUBMIT FULL PROPOSAL</b>	<b>JULY 1, 2026</b>
<b>FULL PROPOSAL DUE</b>	<b>AUGUST 10, 2026, BY 8:00 P.M. ET</b>
<b>NOTIFICATION</b>	<b>JANUARY 2027</b>
<b>AWARD STARTS</b>	<b>NO LATER THAN JUNE 30, 2027</b>

## Award Information

### Application Types

We will accept applications that are new or from a previous pilot study. We will also accept applications (R03, R21) that have been reviewed but not funded by the National Institutes of Health (NIH). We will also consider proposals that were awarded, but later cancelled, by the NIH as long as they correspond to the requirements of this funding mechanism. (See Resubmission of NIH Funded Applications below for additional information).

### Number of Awards

Funding of awards will be dependent on the availability of funds.

### Award Period

Maximum project period is 24 months.

### Award Budget

A budget for total costs up to \$125,000 per year may be requested. This includes indirect costs of up to 10% of direct costs.

### Clarifications:

- Allowable direct costs include salaries, fringe benefits, supplies, sub-contracts, publication costs, equipment & travel expenses.
- CCRF adheres to the NIH salary cap for Principal Investigators.
- Project-related travel is allowed as needed and must be fully justified. Up to \$2,000 per year for conference travel.
- All sub-contracts and collaborations must be described and well-justified.
- If utilizing a subcontract, the PI's institution is responsible for disbursing subcontract funds.
- Any equipment to be purchased with grant funds must be well-justified.
- Indirect costs of 10% of direct costs are allowed.

### Applicant Eligibility & Requirements

- Applicants must be eligible to serve as a Principal Investigator at their sponsoring institution.
- Applicant institutions must be based in the United States.
- Applicants are not required to be United States citizens.
- Awarded PIs are required to commit at least 10 percent of their research efforts each year to activities supported by this award.
- Submission of a Letter of Intent (LOI) is required.
- Co-Investigators and/or collaborators are permitted, but the award must be made to a single institution which will act as the grant administrator.
- Applicants' organizations may submit more than one application, provided each application is scientifically distinct. However, CCRF will only accept one LOI from a PI each calendar year.
- Applicants should review all necessary materials and use the appropriate templates and forms. Failure to comply with the instructions provided may result in programmatic or administrative rejection of your Letter of Intent (LOI) or full application.
